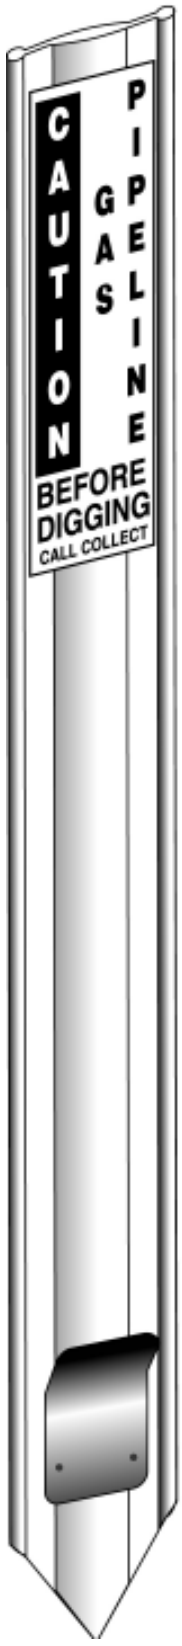
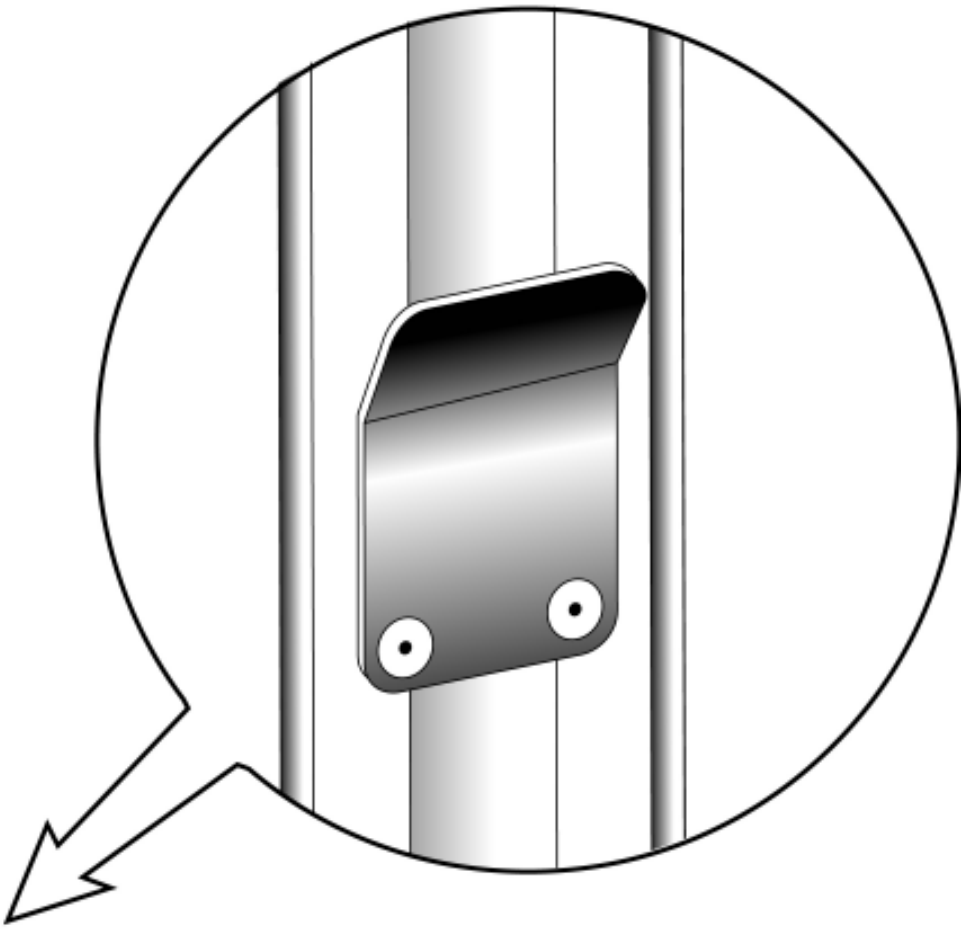
Quantum Flex™ Markers

P.O. Box 3188 • Coeur d' Alene, ID 83816 • 866-778-6017

SOIL ANCHOR



The optional composite soil anchor can be attached to the marker to resist pullout in loose or sandy soil conditions. The soil anchors can be ordered factory installed or can be field installed to existing markers with supplied pop rivets.



Does not hinder installation. The soil anchor folds against the marker during installation then opens up underground during attempted marker removal.
